# Sign Showcase

## Education

We have been a contractor to Kingston University since 2011. Initially we worked on the internal signage, an anti-vandal paper insert system, over the four campus locations. We have since been tasked with improving the external wayfinding and signage over two of the sites. This included totem signs, finger post signs, post and panel signs, maps and sign trays.

## Education

### Staffordshire University

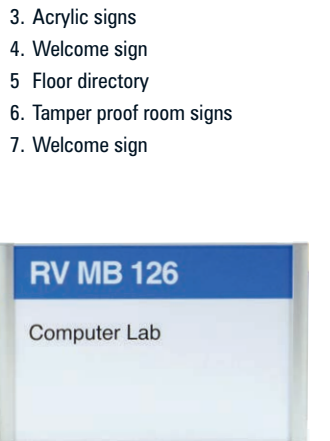

Jactone is a contracted sign supplier to Staffordshire University and we are currently working with them on re-branding and enhancement of the Stoke Campus. We are working on the external signage using totem signs and finger post signs as the main directional aids. Working with customers as their sites grow and develop is something we are used to doing at Jactone, we pride ourselves on building long standing relationships that are mutually beneficial.

# Sign Solutions

## Education

Over the last few years we have been consciously increasing our presence in the education sector.

External and internal signs at a Learning Campus incorporating six schools in Swindon, external and internal signs at a number of Universities and external signs at local schools. The creativity Jactone can offer through its in-house design facility is particularly appreciated by our customers in this wide-ranging sector.

1. Built up external letters
2. Bespoke information sign
3. Acrylic signs
4. Welcome sign
5. Floor directory
6. Tamper proof room signs
7. Welcome sign
