Birmingham

Blood and Transplant

Having been awarded the contract to re-brand the external signage for NHSBT nationally, we surveyed over 40 sites from the North East to the South West of England. Working with the new brand guidelines we produced external signs comprising of post and panel systems, aluminium pan trays, external projecting signs and vinyl applications. We also did internal signage work while we were on site. The project was completed on time and NHSBT are happy with the end result.

Sparkbrook Community & Health Centre is a new facility in Birmingham. We worked through a main contractor to provide external post and panel signs, external plates, built up letters, internal signs and graphics. The internal signs were colour coded and included braille and tactile. We also manufactured and installed internal vinyl graphics on walls, windows and doors.

Attwood Green

For Attwood Green Health Centre near to Birmingham City Centre, we produced an internal system of braille and tactile signs and large scale wall vinyls. This included applying vinyls to two walls in the atrium, from top to bottom of the six storey building. On the outside of the building we produced and applied built up back lit lettering of the name of the site.

The Lighthouse is a dementia friendly facility within Edward Street Hospital in the West Midlands. The brief from The Black Country Partnership NHS Foundation Trust was for us to design a cultural welcome wall in the reception area, a black country themed wall in the library, restaurant signage, dementia friendly door signage and "top tips" vinyl's in the visitors living area.

North Middlesex University Hospital

We were commissioned by the main contractor to provide the external and internal signage. This included externally post and panel signs, illuminated built up letters, sign trays, finger post signs and internally interchangeable directories, interchangeable wall signs and super graphics. Since then we have been working with the Hospital Trust on extending the system through the retained estate.
