FIRE EXTINGUISHERS**

JacTone®

**UK Manufacturer of
Fire Safety Products**

eco^{PLUS} FLUORINE FREE

As sustainability becomes a core priority globally, fire safety solutions are evolving to meet environmental standards without compromising performance. Our UK manufactured **Fluorine Free Fire Extinguishers** represent this new generation - delivering reliable fire suppression while eliminating harmful fluorinated compounds traditionally found in firefighting foams.

The Jactone Eco PLUS range includes **Fluorine Free Foam** extinguishers, designed for effective control of Class A (solid combustibles) and Class B (flammable liquids) fires, and **Fluorine Free Wet Chemical** extinguishers, ideal for tackling Class F fires involving cooking oils and fats. Both types use advanced, eco-friendly formulations that reduce environmental impact while maintaining compliance with British and European safety standards.

Eco PLUS = Fluorine Free Fire Safety

Jactone Eco PLUS fire extinguishers contain no persistent fluorochemicals, meaning they are PFAS-free. That's better for the environment, safer for people, and compliant with emerging regulations for sustainable fire protection.

Whether you're upgrading your fire safety equipment or aligning with sustainability goals, the Eco PLUS fire extinguisher range delivers on both fronts.

Benefits of Eco PLUS Fire Extinguishers

- › UK manufactured
- › BS EN3 certified
- › PFAS-free
- › Quality deep-drawn cylinders with durable polyester external coating and internal plastic lining
- › High quality heavy-duty brass valves
- › Colour coded header, handle and base
- › Spray nozzles comply with the dielectric test of BS EN3-7, clause 9

Product Information and Specification

- The Jactone Premium Eco PLUS fluorine-free Foam fire extinguisher is manufactured at our UK factory and is available in 6 and 9 litre models. Both models come complete with the distinctive Jactone colour coded handle, header label and base and are Kitemark certified to BS EN3, UKCA and CE marked.

The stored pressure Eco PLUS foam fire extinguishers are suitable for use on class A solid combustible fires (wood, paper, textiles) and class B flammable liquid fires (petrol, diesel, paint, solvents).

SIZE	FIRE RATING	TEMP RANGE	CODE
6 Litre	21A 144B	+5°C to +60°C	EFS6FF
9 Litre	34A 183B	+5°C to +60°C	EFS9FF

- The Jactone Premium Eco PLUS fluorine-free Wet Chemical fire extinguisher is manufactured at our UK factory and is available as a 6 litre model with either a lance or hose. Both models come complete with the distinctive Jactone colour coded handle, header label and base and are LPCB certified to BS EN3, UKCA and CE marked.

The stored pressure wet chemical fire extinguishers are specifically designed for use on class F fires involving cooking appliances containing oil but are also suitable for class A fires. Wet chemical is the ideal commercial and industrial kitchen fire extinguisher.

SIZE	FIRE RATING	TEMP RANGE	CODE
6 Litre	75F 13A	+5°C to +60°C	EWCS6FF (Lance Model)
6 Litre	75F 13A	+5°C to +60°C	EWC6HFF (Hose Model)

The ECO PLUS range of fire extinguishers is PFAS-free

Jactone Eco PLUS fire extinguishers contain no persistent fluorochemicals, meaning they are PFAS-free. That's better for the environment, safer for people, and compliant with emerging regulations for sustainable fire protection.
