

GPF1300

Heavy Duty

GPF1300 welding drape and curtain is the material of choice where high performance resistance up to 1000°C is required. Specially treated glass-fibre to raise resistance to grinding sparks and molten metal to high temperatures, whilst retaining a soft flexible characteristic.

- › Portable and multi-purpose.
- › Brass eyelets can be fitted to hang / secure.

WEIGHT : 1300g/m²

THICKNESS : 1.7mm

- › **NOTE :** All fabrics will deteriorate with use and should be considered a consumable item.

Product Specification

› Curtains

Eyelets are equi-spaced along the top edge (no greater than 300mm apart) with eyelet in each bottom corner.

› Drapes

One eyelet in each corner and then equi-spaced along all 4 sides (no more than 1000mm apart).

Please specify **Curtain** or **Drape** when ordering
