

JacGLOW®

Photoluminescent Safety Signs

» Catalogue 26

Helping you stay safe today and tomorrow

Established in 1977, Jactone is a leading UK manufacturer of safety and information signs. Health and safety and information signs within an environment or workplace are essential. Signs highlight important information or potential dangers to employees and members of the public.

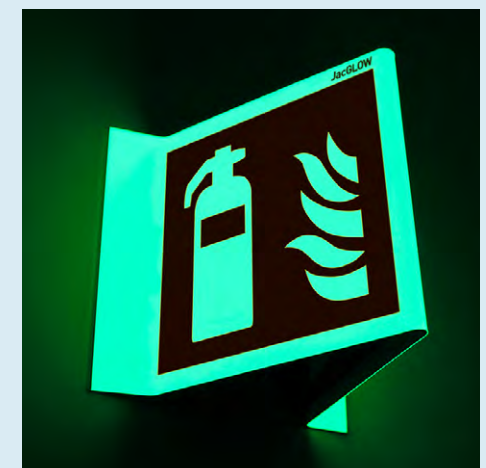

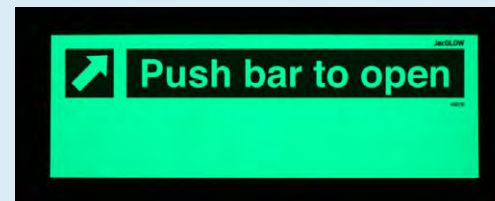

With 25 years of experience printing and manufacturing safety signs, Jactone offers a comprehensive collection of quality signs. This catalogue is dedicated to our **JacGLOW photoluminescent** signs.

All signs are manufactured and supplied to the latest BS EN ISO 7010 standards. We are certified by BSI to BS EN ISO 9001, covering all of our manufacturing operations and carry many third party approvals across our range of products.

JacGLOW®

In the event of a power failure or sudden darkness within an environment or workplace, it is essential to highlight important information or potential dangers to employees and members of the public with safety and information signs.

JacGLOW signs offer long-lasting photoluminescent performance, making them an ideal and cost-effective solution to providing illuminated signs in the event of a power failure and sudden darkness.

JacGLOW® High-Rise Residential Buildings

The Fire Safety (England) Regulations 2022, under Fire Safety: Approved Document B, Appendix 15.13 - 15.16, has made it a legal requirement for all residential buildings 11 metres or taller in England to display wayfinding signs to assist firefighters in the event of a fire emergency. The wayfinding signs must identify the floor and indicate the flats on each level, and they must be visible in low-lighting conditions or when illuminated with a torch.

JacGLOW® Water Safety Maritime

Recommended International Maritime Organisation (IMO) symbols, indicating the location of emergency equipment, muster and embarkation stations. Produced on our quality photoluminescent material, we believe our JacGLOW signage offers a longer lasting performance in the event of a power failure and sudden darkness.

MATERIALS

R = JacGLOW Photoluminescent Rigid PVC

- › High performance.
- › Printed in the UK.
- › Digital production.
- › Manufactured to BS EN ISO 7010.
